Subject Carlule

Dear Sirs:

This message is my plea and request to you, not to allow this Carlyle entity to purchase and/or control the Verizon, provider of telephone land lines etc. It would be extremely ill-advised to allow the genre of corporate shibai that could result in real damage to THIS PUBLIC UTILITY (which you are pledged to protect). The reference here is to the partition and selective sell-out of services, etc., as well as other various shenanigans done only for corporate profit, and to the detriment of the public interest. If you allow the Carlyle presence and damage results, there is certainly a defensible legal position, that you are each personally legally responsible: Auwe!

Sincerely, Daniel Morimoto MD/POB 2769/Kamuela, Hi. 96743
